

Jason 390. Design: EOOS.

Jason 390 is synonymous with modern living. Smart design with a practical purpose. The armrest extension mechanism is housed within the frame. A surface for lying on can be produced in next to no time within the two-, two-and-a-half- and three-seater sofas.

## Designawards

reddot design award

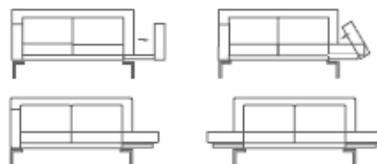

**Model no.** 390

**Frame** Seat: Steel with zigzag springs.  
Back: Steel.

**Upholstery** Loose seat cushions, sandwich construction with an outer layer of wadding/ticking. Loose back cushions available with two types of upholstery.  
Type 1: Ticking sewn into chambers with foam rods/fibre filling and foam cure (casual look).  
Type 2: Cold cure foam with an outer layer of wadding (formal look).

**Legs** Steel, satin-chromed or highly polished chrome-plated finish, with height-adjustable glides.

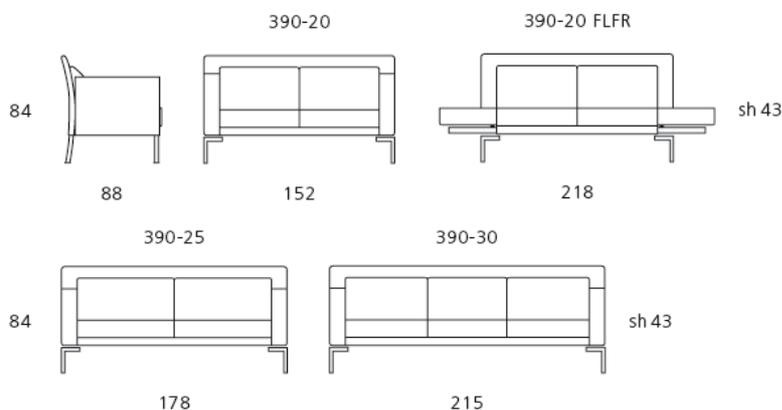

## Function

FL = Functional armrest, left  
FR = Functional armrest, right  
FL/FR = Functional armrest, left and right.  
As viewed from the front in each case.

Each armrest adds 33 cm to the width of the sofa when fully extended.
