

DEEN. Design: EOOS.

A chair is a chair. But it is one of the most difficult tasks there are in design. Deen fits the bill. Minimised in volume, precise in shape. Modern hydroforming gives the legs their delicate elegance. The seat is full of hidden talents: the upholstery is invisible, but the comfort is ever-present. And the flexible back adds to it. Deen is as beautiful as it is streamlined. Its simplicity is what makes it special.

Product description

Modell no.

1600/1604

Frame

Steel frame.
Flexible back with torsion springs.

Legs

Gloss coated black or bronze.
Alternatively, against surcharge:
- highly polished, chrome-plated.
